Several days ago H. R. Branche, sec-retary of the local Chamber of Com-merce, mailed to State Highway Commissioner Charles J. Bennett a Commissioner Charles J. Bennett a letter asking him if it would not be possible to put in operation a "flagging" system on the section of the Norwich-New London highway now under reconstruction, as it is felt that the highway ought not be closed during the summer months, when the traffic is heaviest. The letter to Mr. Bennett was as follows:

The Chamber of Commerce of Norwich, Conn., Inc., wishes me to take up the question of providing some way, other than a wide detour, for automobiles to follow the main trunk-line between Norwich and New London during the time repairs are being made to same. As you must be aware, if this road is entirely closed during the months of June, July and possibly August, it will incur a great loss of business to the merchants of Norwich,

The secretary immediately took the matter up with Mr. Bushneli and through Mr. Bushneli's courtesy was taken over the detours and that part of the highway under construction be-tween this city and New London. In a communication addressed to Mr. a communication addressed to Mr. Bushnell and mailed on Thursday, Mr.

Branche says: I have already laid tht proposition before some of our influential mem-bers, with the result that they are unanimous in their approval of your plan as outlined, provided that you do put the detour in such shape as you feel will be safe and in keeping with a detour that is bound to carry the amount of commerce that this wil during the period the main line is closed. Of course, if later we find that there is too much traffic or that arge autotrucks and moving vans are a hindrance to the same and an annoyance to the regular traffic, as you suggested, I believe it would be a very wise thing for the state to open the second detour and so have a north-bound and a southbound one-way
